

Hanford 100 Areas

Groundwater End State

Pre-cleanup (1989) Extent of Groundwater Contamination Above Standards

Post-cleanup Extent of Groundwater Contamination Above Standards

Cleanup Actions to Date

- Near surface contaminant removal
- Pump and treat systems
- Reactive barrier walls
- Eliminate/manage recharge
- Restrict Access
- Evaluate/implement alternative technologies at 100 N Area
 - Barrier
 - Phytoremediation

Reducing Strontium 90 Discharge to the River
